

## **Booking KCC Nets During Covid-19**

- Nets may only be used if a booking is made and confirmed by the club.
- Availability of net sessions can be viewed on the club website.
- All bookings to be made by emailing **knaresboroughcc@gmail.com** only.
- Bookings will only be accepted from senior members , or, in the case of juniors, by an adult household member/parent/legal carer. At the point of booking, you must advise which parent/carer will be attending the session.
- Only one session can be booked at a time. No block bookings will be taken.
- Successful bookings will be confirmed by email. Do not attend a session if confirmation has not been received.
- If you wish to use the facility with a professional 1:1 coach, you must advise the club and provide the coach's details at the time of booking. A fee will be payable prior to the session commencing.
- If you are using the nets with somebody from outside your household, both must be members. The details of both members must be provided at the time of booking. In the case of juniors, each junior must have an adult household member/parent/legal carer in attendance for the session.
- Members are responsible for familiarising themselves with the guidelines regarding the use of nets, and social distancing guidelines relating to net practice prior to their session.
- If you book a session and are subsequently unable to attend, please advise the club asap by emailing **knaresboroughcc@gmail.com**. This will enable us to re-allocate to another member and not waste a volunteer's time. Failure to do so will prevent you from booking further sessions during this period.
- If any member, or member of their household is displaying covid symptoms, a net session must not be booked or attended.
- If following the use of the nets, members begin to display covid symptoms, the club must be advised and members consent that the club, if requested by authorities, provide their details to the authorities in the event of a Track and Trace policy being in place.

**OUTSIDE OF SUPERVISED SESSIONS, THE GROUND AND ALL FACILITIES WILL REMAIN CLOSED AND NETS CANNOT BE USED.**
